

Turn Customer Questions Into a Useful FAQ Video

Choose three real customer questions, confirm the answers and turn them into a short video your customers can use.

The screenshot shows a video production interface for 'BUILD PROFIT AI'. The top left corner has the logo and text 'BUILD PROFIT AI'. The top right corner has the text 'PRACTICAL AI FOR BUSINESS'. Below the logo, it says '03 / DRAFT'. The main title of the draft is 'Give AI clear boundaries'. A text box on the left contains the instruction: 'COPY THIS APPROACH Using only the approved answers below, write a short FAQ video. Answer each question in plain language. Do not invent prices, turnaround times, guarantees or services. Flag missing details for review.' Below this text box, it says 'FICTIONAL BICYCLE SHOP • ILLUSTRATIVE EXAMPLE'. On the right side, there is a video frame showing a man in a white shirt and blue tie sitting at a desk with a microphone. A name tag on the desk identifies him as 'TOTI Steve's Digital Assistant'. At the bottom of the video frame, there is a caption: 'forty-five-second FAQ video.'

What this guide helps you do

The bicycle repair shop in this lesson is fictional. Its policies are examples, not promises for your business. JoggAI was used for the presenter production; the lesson's drafting process is not tied to a particular writing assistant.

Presenter: Toti - Steve's Digital Assistant. Keep this guide open while you follow the lesson.

Follow the workflow

Choose three useful questions

Review your enquiries and pick questions that help a customer decide what to do next. Remove names, contact details and private information.

Confirm the answer sheet

Write one approved answer for each question. Ask the person responsible for your services, pricing or delivery to confirm it. Mark unknown details for review.

Draft within clear boundaries

Give your writing assistant only the approved answers. Request a forty-five-second draft in plain language. Explicitly forbid invented prices, timelines, guarantees or services.

Check every sentence

Compare the draft with the approved answer sheet. Read it aloud, remove jargon and make the next action clear.

Build and review the video

Show one question at a time, use relevant illustrations and legible captions, then check the result on a phone with and without sound.

Keep the answer current

Use the correct contact method and update the video when your policies change. Track observed viewing and enquiry results without promising a particular outcome.

Your working sheet

For each question, write the approved answer and who confirmed it. Leave unknown details blank until reviewed.

Question 1:

Customer question: _____

Approved answer: _____

Confirmed by / date: _____

Question 2:

Customer question: _____

Approved answer: _____

Confirmed by / date: _____

Question 3:

Customer question: _____

Approved answer: _____

Confirmed by / date: _____

Review before you share

Copy this prompt

Using only the approved answers below, write a forty-five-second FAQ video. Answer each question in plain language. Do not invent prices, turnaround times, guarantees or services. If a detail is missing, flag it for review. [Paste your approved answer sheet.]

- ☐ Every claim matches the approved source.
- ☐ Private customer details have been removed.
- ☐ Face and voice match the authorised references.
- ☐ Speech is clear and captions agree with it.
- ☐ Illustrations explain the point without clutter.
- ☐ The video works on a phone with and without sound.
- ☐ The contact method and next step are correct.
- ☐ The completed export has been watched at normal speed.
